Old Timers Day Picnic
Wednesday.

Old Timers Day, the attraction of the boys and girls of yesterday, whether they be here or far away, took place on Wednesday at Cascade park, with the largest attendance in several years. It was in general a day of rejoicing and renewing friendships of bygone days.

Due to the able assistance of the park attaches and members of the city police force, the affair was carried out in perfect order and the Old Timers had every opportunity of enjoying themselves. The dancing floor of Rainbow Terrace was their exclusive property during the afternoon and made it possible for all to enjoy the grand march and the old time dances.

Approximately twelve thousand people are estimated to have attended the event, according to C. C. (Continued On Page Two)

PA NEW OBSERVES

A New Castle motorist just returned from a trip to the northern part of the state is enthusiastic over the opening of the new road from Pleasantville to Enterprise, making the trip to Warren, Pa., 43 miles shorter for New Castle people. The new road, he says is partly obstructed in some places, as yet. Work is being done on the bents.

A chap tells us that weeds have been allowed to grow too thickly along West Clayton and other seventh ward streets. Suggests that a moving attachment be placed on the city sweep.

Crowds milling in and out of store, hurrying through East Washington street and arms filled with bundles was a pleasant sight today. In fact it looked as though Old Man Jinx Depression had been routed. Spending can return good times.

Dollar Day Draws Throngs To Stores

Did they go for the Dollar Day Sale of a Century today?

Did they?

You're asking us!

And we know all the answers.

The answer is they did. The bankers lady and Judy O'Grady were sisters under the skin today. At noon they were fighting shoulder to shoulder, trying to get close enough to the bargain counters to grab off a load of the sweetest bargains you ever saw in this town.

Or ever will for a long time at least. With prices reaching for the moon the tags on goods today on New Castle counters looked like a burlesque or a Scotchman's dream.

Yes sir, they certainly went for the Dollar Day sales.

Street cars were pouring out

shoppers and automobiles came down loaded with passengers and went home loaded with passengers and bundles. With the bundles taking most of the room.

Sales girls were complaining of sore feet from standing back of the counter so long handing out merchandise and proprietors were wearing smiles that every paper couldn't have rubbed off.

A great day for the stores, neighbor, and an even greater day for the thrifty housewife who isn't adverse to putting a little savings into the family sock.

The Dollar Day Sale of a Century proved one thing today. New Castle and Lawrence County shoppers know bargains. They came down (Continued On Page Two)

Police Arrest Man Posing As Inspector For Power Company

Harry E. Gross, 28, of 29 Dean Block, South Croton avenue, was taken into custody Wednesday afternoon at his home, by City Detective John Young and Officer Harry Plinner, in connection with a charge of representing himself as an inspector of the Pennsylvania Power Company, and the theft of a pocketbook, a key and a small sum of money from the home of Mrs. Jennie Forquer, 411 Bartram avenue one of the homes to which he gained access, while posing as an employee of the power company.

He confessed, the police say, that it was he that posed as an inspector of the Pennsylvania Power Company at the homes of A. E. Hess, 222 Pearson street, and Mrs. Forquer, and taking a pocketbook, money and key at the Forquer home.

Faces Charges
He will be taken this afternoon before Alderman O. H. P. Green, where he will be charged by the police authorities with larceny, also other charges, including that of posing as a representative of a public utility, which is considered almost as serious a crime as posing as an officer.

According to the police, Gross went to the Hess home and gained admittance to the hallway, where the switchbox was located on the pretext that he was hunting a "short." Mr. Hess was upstairs near where a washing machine was operating, when it suddenly stopped. He went to the hallway and discovered Gross pulling out the switches and asked him what he (Continued On Page Eleven)

Schools To Start On Daylight Time

Board Decides To Observe
Daylight Savings Time
As Term Opens

New Castle schools will continue on daylight savings time until such time as the industries and business houses return to eastern standard time, it was decided at the meeting of the school board Wednesday night. This will be some time late in September.

With school opening three weeks hence, the matter came before the board Wednesday night at the regular monthly meeting. Some of the members felt that it was an inconvenience for the mothers to have to get the youngsters up on fast time, but it was felt that it would be more of an inconvenience to have two times governing households and by a five to two vote the board decided to continue the daylight savings time.

Final orders for assembly Friday were issued by Capt. Harvey G. Bintrim, commander of Troop F, 103rd Cavalry at the final drill session of the troop in the Amory last evening.

The members of the troop will assemble at the Amory at 1 o'clock tomorrow afternoon, when the baggage will be loaded and the last details for departure arranged.

The troop is at full strength, and practically every man on the roster is a veteran with previous camp experience, which should give the local unit an advantage in the competitive events to be staged at camp during the two week's stay there. Capt. Bintrim and the other officers of the troop will be deeply disappointed if the troop does not attain a high rating in camp.

Those who will leave for camp are Capt. Harvey G. Bintrim, first lieutenant, George F. Mitchell, second lieutenant, George F. Seyffert, first sergeant, George R. Pollock, mess sergeant, Donald E. Gotham Contest Seeks Champion Kissing Pair

All that noise emanating from New York isn't static, but sounds of the tryouts for the kissing marathon to be held at Coney Island. Here are some of the contestants. The longest smack wins the prize.

By JACK KEENE
Central Press Writer

NEW YORK, Aug. 17.—(Central Press).—Coney Island, of all places, is setting out to apply the reconstruction act to romance.

It is preparing to stage a kissing marathon designed to promote the art of osculation (kissing to you).

Only teams of two may enter. Each team will be allowed six kisses, with the duo registering the longest continuous kiss to be considered the winners and the champions.

The judges will not be allowed to take any samples.

Of course, it's just another one of those things. But Coney has evidently started something, for as soon as the news got out, promoters in other cities hopped on the idea, and it looks as if there'll be a wave of kiss marathons rivaling the dance marathons that swept the country.

And lest it be imagined that kissing is something to be confined to private places like railroad stations, park benches and movie theaters, it should be stated that there are droves of entries in the Coney contest—and droves is the word.

That historic "charge at Fredericksburg" and many another minor battle skirmish of Civil War days were lived anew in memory Wednesday when a patriotic group of old-timers—sons and daughters of the soldiers of Company B, 134th Pennsylvania Volunteer Infantry, and their friends—held another of their famed reunions at the farm home of J. Bert Studebaker, near Camp Yohe-Campbell on the Slippery Rock, near Elliott's Mills.

Affair Attracts Crowds

It has been for over 30 years that the reunions have been held, but none surpassed yesterday's for pure, good old-fashioned reminiscing. The outing attracted a crowd of 150 persons.

MARK H. SHANK
(International News Service)

LITTLE ROCK, Ark., Aug. 17.—Mark H. Shank, Akron, O., attorney and confessed poisoner of four, was rushed to the state penitentiary here today under heavy guard. Shank, accompanied by a large police escort, was first taken from Hot Springs, to Benton, county seat of Saline county for preliminary hearing, which he waived.

To Seek Death Penalty
(International News Service)

HOT SPRINGS, Ark., Aug. 17.—District Attorney Millar Halbert said today he would ask the death penalty for Mark H. Shank, Akron, O., attorney who confessed to the fatal poisoning of a father, a mother and their two small children because they "knew too much."

Halbert ignored Shank's pleas for leniency as he prepared to take the attorney to Benton for the preliminary hearing today on the charge of murder. The prosecutor said he plans to send Shank to the state penitentiary at Little Rock for safe keeping until the trial.

The victims of the poison plot were Alvin Colley, his wife, Ethel, 34 and their two small sons Clarence 7 and Clement, 10.

In the presence of officers Shank said he came here from Akron Sunday to poison Colley to escape the blackmail threats of an unnamed woman who demanded \$400 for her silence.

Put Poison In Grape Juice
He had planned to get rid of only Colley, the attorney said, and had given "no thought at all" to killing the rest of the family.

Shank explained that the unnamed woman had threatened to implicate him in the theft from the prosecutor's office at Wooster, O., of papers to a forgery case against one of his clients. Colley was implicated in the robbery, and Shank said that the man had been "running around" with the woman.

The attorney said that while Mrs. Colley was preparing lunch he placed

WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in your food gas blasts up your stomach. You have a thick, bad taste and your breath is foul. Your skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Reason's substitute, 25c at drug stores. © 1931 C. M. Co.

E. church, passed away at the home of her daughter Mrs. Fred Canfield, in Maysville, Mo., August 7, at the age of 74 years. She had been critically ill for only two weeks but her death came as a result of a long illness.

Surviving her are two sons, Arthur, of Beckford street, New Castle, Clarence of Cleveland, and two daughters, Mrs. Clara Canfield, Maysville and Mrs. Jessie Canfield, of Civil Bend, Mo., one sister Belle

McDade, Los Angeles and four brothers, Jack, Robert, Will and Charles of Pennsylvania and eighteen grandchildren.

She came to New Castle in 1911 and helped establish and became a charter member of the Grace M. E. church. She was a teacher in the Sunday school and president of the Epworth League, leaving here in 1912.

Asks Extension On Tax Penalty

McIlvenny Says Time For Paying
School Taxes Should
Be Extended

School Director J. Herbert McIlvenny brought before the school board Wednesday night the possibility of extending the tax penalties on school taxes until December 1, 1934, similar to action of a year ago.

"If we can aid the people to the extent of granting a moratorium on their school tax penalties, even for a short time, we should do so," said Mr. McIlvenny.

The other members of the board were favorable to the idea if such action can be taken legally. The matter was referred to the Solicitor William J. Moffatt for an opinion and if it can be done, it is likely that the next meeting of the board will see it done.

BARBER'S STATEMENT

August 16, 1933.
To The Editor Of New Castle News.

Dear Sir:
Your issue of August 8, published an article stating all barbers and barber shops of the city of New Castle had agreed to a Code regulating the hours and prices.

This article has caused much confusion in the organized Barber Shops of our city as it extends the hours of labor beyond our present hours which is contrary to the spirit of the Code.

Recent press reports from Washington indicate the hours shall not be more than forty-eight hours.

Local 278 Journeymen Barbers Union has eagerly awaited definite settlement of the Code before taking any action.

We have been in constant touch with our International office and have made preparation to conform with any ruling from Washington.

The Journeymen Barbers International Union was granted a charter by the American Federation of Labor nearly forty-six years ago. Its jurisdiction includes all employed barbers, beauticians, and all proprietors of one or more chair barber shops not employing a journeyman.

The officers and members of Local 278 have welcomed any attempt to better the working conditions of the barber, but we resent any attempt to tear down conditions, that have taken years to establish.

Trusting you publish this, and thanking you in advance we remain,
Respectfully yours,
BARBERS LOCAL UNION 278,
Frank Fazzone, Secretary.

THE DARING IRON JAW GIRLS

Of the multitude of acts, including the thrilling aerialists with the Great Hagenbeck-Wallace Circus this season, none, probably, are more graciously received and enjoyed than are the iron-jaw girls, who hang by their teeth in the upper spaces of the big-top while doing their act.

Although their beauty of face and figure, costuming and effects, are half the appeal, the girls must risk a lot because there are no nets beneath them should they fall.

When the Great Hagenbeck-Wallace Circus comes to New Castle on Saturday, there will be an aerial ballet in which scores of beautiful

girls will sail through the air while hanging by their teeth, while others will perform on great revolving ladders at high speed. A veritable maze of flying human forms.

In addition to the Clyde Beatty, world famous wild animal trainer, who is again presented in person this season, the mighty program will bring many sensational features, included among them a new version of "Cleopatra, Queen of Egypt," a colossal spectacle in song which opens the performances at 2 and 8 p. m.

Pontiac...THE WORLD'S LARGEST BUILDER of STRAIGHT EIGHTS

The 4-door Sedan, \$995, f.o.b. Pontiac
Special equipment extra
A General Motors Value

Here's why America is buying them!

Men and women are buying more Pontiacs than any other car in Pontiac's price range! Why? Because they have found that this big, modern Straight Eight excels on all counts... as you will find when you see and drive it.

You get power in a Pontiac—more power than you'll find in any other automobile at or near its price—delivered far more smoothly by Pontiac's 77-horsepower Straight Eight engine.

You get more speed, too—78 actual miles per hour. Your Pontiac holds

the road better—rides more comfortably—because it's a big car, with 115-inch wheelbase and well-distributed weight (3265 pounds, curb weight, for the 4-door Sedan). And it's the only car in its price range with the Fisher Ventilation System—greatest comfort factor since the development of the closed body.

There just isn't anything to compare with Pontiac at its price. In Fisher Body beauty—in comfort—in Straight Eight performance. That's why America is buying Pontiacs. That's why you'll prefer Pontiac, too.

Makes Protest
On Wages PaidMcIlvenny Thinks Schools Not
Paying Enough To Women
Cleaners

Wages paid cleaning women who work several hours per day in the schools of the city came in for considerable comment Wednesday night when the board met for its regular monthly session in the administration building on East street.

It was disclosed that some women are working an average of four hours per day in the schools for a wage of \$14 per month. "Such wages are a scandal," said Director Herbert McIlvenny. "With the country endeavoring to lift itself out of the depression, with the NRA urging better wages for workers, and with the cost of living going up, we have the gall to pay these women \$14 per month. For that they make two trips per day to the school buildings, to work a couple of hours in the morning and another couple of hours in the afternoon."

Cut From \$35. "These women did get \$35 per month some time ago," said Mr. McIlvenny, "but their time was cut in half, and then 20 per cent of their money was taken. It seems to me that the people do not expect us to pay such scandalous wages to any one who works for the school district and it is about time that we did something to raise them a little anyway."

"The women have been cut 70 per cent in their wages," said Mrs. Doutheit. "We are not paying anything like the hourly wage prescribed by the NRA."

"It seems to me that there should be equal pay for equal work," said Mrs. Elliott, "and if these women do the work equal to the men janitors they should be paid accordingly."

It was pointed out that the budget does not call for any increase in wages this year and if such an increase were made to the women, some means of finding the money would have to be found. The matter was referred to the budget committee for investigation.

The women who have been used as cleaners come in for a few hours every day to assist the janitors in sweeping and dusting. They are not full time employees.

GEORGE WASHINGTON
SCHOOL ELEVATOR
WILL BE LOCKED

Orders have been received by Superintendent of Buildings and Grounds S. G. Ligo of the New Castle from the state Department of Labor and Industry to install locks on the elevator system in the George Washington junior high school. The matter came before the school board on Wednesday night and Ligo was authorized to have the locks installed.

For some time the elevator in this building has been used promiscuously as a passenger elevator. It has been simple to operate and accidents have been possible, although never actually have happened. With locks installed on the mechanism only the janitors can get into the elevators, with keys that will be provided.

To Act As Attendance
Officer

Miss Helen Wilson, one of the school nurses was named Attendance Officer Wednesday night by the School Board, with the understanding that she was to perform these duties in addition to her duties as a nurse. An allowance of \$40 per month was made for the purpose of maintaining an automobile.

Some discussion arose when the matter came up. A. C. Hyde arguing that the position of Attendance Officer had been abolished in the interests of economy. It was pointed out that it was necessary to have an Attendance Officer, but that by appointing Miss Wilson to perform the duties, there would be no added expense for salaries.

Day camp is conducted for the benefit of all girls of the organization who were unable to attend camp at Kennedy's Mills this year.

Police Officers Make Up Purse

Contribute Amount Stolen From Miss Jennie Forquer By Sneak Thief

Several of the New Castle police-men joined the W. C. T. U. today, at least by intention if not by actual membership. Their joining came as the result of their desire to help a lady who at one time worked with the department before a police patrolman was authorized, Miss Jennie Forquer.

Miss Forquer lives at 411 Bartram avenue and her home was one of the places visited by a man who represented himself to be a meter reader and then is alleged to have committed robbery.

The man visited Miss Forquer's home, and when he had left, a purse containing four dollars was missing. Three of the four dollars were dues

of the W. C. T. U. of the branch in which Miss Forquer is an officer. When she visited police headquarters today to identify the suspect the officers on duty chipped in and made up the four dollars stolen from Miss Forquer and from now on they have friends in the W. C. T. U. Miss Forquer was formerly a secretary in the Y. W. C. A. and before there was a police patrolman she worked with police officers in cases in which girls were principals.

"It was a nice thing to do" said Miss Forquer, speaking of the purse the boys made up, "and I think the public should know it."

SOMERVILLE, N. J., Aug. 17.—Valentine Swody, 94, who has been voting since 1860 and taking an active part in civic affairs all his life, just found out he is not an American citizen.

It seems Valentine, applying for an old age pension, found out through county records that he had been born in Frankfurt, Germany, in 1839, and was brought to the United States by his parents a year later.

So Valentine had an application for citizenship on file, and everything is going to be all right.

BOARD DISCUSSES UNPAID SCHOOL TUITION

Three Townships In Debt To City

Arrangements Must Be Made For Tuition In Advance This Fall

MAY ADJUST CASES BEFORE SEPTEMBER

Unpaid tuition got its usual annual attention Wednesday night when the New Castle School Board met, and given the usual treatment. The board voted to exclude from the high school, any pupils whose districts still owe the New Castle District tuition money.

Three districts are affected by the resolution. Neshannock township, which owes \$2500 on last year's tuition and against which there is an \$8000 judgment for previous years, South New Castle Boro which owes \$3041, and Taylor township which owes \$381.33.

Pay In Advance

The parents of the pupils in these districts can pay the tuition of their children in advance if they wish to enter them, or the school district can pay it if the pupils from these districts attend the Senior high school in New Castle next term.

"It seems too bad that the children must suffer for the omissions of the school boards of these districts," said Mrs. J. C. B. Douthett.

"Yes that's true," said Mrs. John E. Elliott, "but it is worse to have New Castle taxpayers paying for the education of boys and girls outside the city limits. The taxpayers here have enough burden on their hands without adding any in the form of tuition pupils whose districts do not pay their bills."

In Neshannock township for several years an attempt was made to collect the \$8000 due and finally it was filed as a judgment against the district. Last year \$2500 more was added to the indebtedness making a total of \$10,500.

While there may be some adjustment made by the time school opens which will permit the pupils to enter, it seems certain, from the temper of the board, that at least the current tuition must be paid if the pupils are to enjoy the advantages of the New Castle Senior high school.

Airmail Leads To Solution Of \$190,000 Kidnaping And Railway Station Massacre

Clever sleuthing of detectives in locating the hideout of Harvey Bailey, escaped convict, wanted for the bloody Kansas City massacre, brought the capture of Bailey and apparently solved the kidnaping of

Charles Urschel, wealthy Oklahoma oil magnate. While being held captive, Urschel noted the time that twice daily, airmail planes passed over the house in which he was held. He made a mental note of

the date when once he did not hear the roar of the plane. With this information and by checking weather charts, detectives located the air lane flown by the mail planes and raided a shack near Par-

adise, Wise County, Texas, 125 miles from Dallas. Bailey, caught off his guard, and four others were arrested. Bailey is alleged to have confessed holding Urschel a captive in the shack until \$190,000 ran-

som was paid for his release. Photos show (1) Urschel, the kidnaper; (2) Mrs. R. G. Shannon and her daughter-in-law, Mrs. Armon Shannon, arrested with their husbands when they were found with

Bailey in shack; (3) the shack, with arrow pointing to the bedroom where Urschel was held; (4) R. G. Shannon and his son, Armon; (5): Bailey.

Post Office Will Help NRA Branch Push Drive Here

Handles Posters And Stamps But Answers No Questions, Officials Say

Postmaster Lake S. McNab today made known that Postmaster General James A. Farley had reminded postmasters that the post office department is merely the distributing agency for President Roosevelt's NRA campaign and not the bureau which is to interpret and decide different question which arise concerning it.

Within the past few days, the postmasters in many cities have been besieged by questions pertaining to codes and working hours. Mr. Farley pointed out. He said that in no way was the department authorized to speak.

The National Recovery administration, and its branch system in Washington, the postmaster general's notice read, was created just for that purpose. All inquiries concerning hours and wages should be addressed to it.

Gets Questions Here

Postmaster McNab revealed today that almost daily some problems relating to a code or part of it is presented to him to solve.

Distribution of the NRA blue eagles and the posting of the "honor roll of signers" are the only duties the post office department is expected to perform in the drive.

It was announced that additional NRA signs had been received at the post office for local employers who obligate themselves to follow the president's national recovery program.

Acting Third Assistant Postmaster General R. M. North has addressed a memorandum to Postmaster MacNab asking that he offer for sale to the public so far as possible "during the period of the business recovery campaign" the new NRA three cent stamp in lieu of regular issues. The stamps are expected shortly.

Just Folks

BOYHOOD MEMORY

It used to be fun in the good old days to rise at the dawn of day

And dig for worms for a fishing trip. It used to be fun, I say, For I'll swear that robin who hovered near knew just what we were about.

Since he flew to the ground when the earth was turned and begged us to toss one out.

Yes, it used to be fun to go fishing then, but Time has rewritten my terms.

Of what pleasure is, and I never get up to dig for a can of worms.

We'd sit on a dock and we'd swing our legs all day in the blazing sun. And a few small fish on a piece of string was our ultimate dream of fun.

Then digging for worms was an easy task, but I tried it a year ago. And the earth seemed hard as a city street where the streams of traffic flow.

Add I'd lost the knack of clutching a thing that wriggles and twists and squirms.

So I said to myself: "You will never again go digging at dawn for worms."

I stuck to the task till my hands grew sore, I labored and toiled and wrought.

But the worms were scarce and no robins came, and it wasn't the fun I thought.

But a small boy said as we walked away: "I'm wondering, Uncle Ed, When there's so much pleasure in getting up, how can old folks stay in bed?"

I could only answer him this: "My lad, all experience confirms The dreadful fact that there comes a time when it's labor to dig for worms."

THOUSAND ATTEND COMMUNITY PICNIC

Affair Proves To Be Glorious Event; Picnic And Varying Program Features

Ellwood Bugle And Drum Corps Second In Contest; Many Prizes Awarded

ELLWOOD CITY, Aug. 17.—Reminiscent of the good old days of 1924-25-26, another of the highly successful and famous community picnics was held in Ellwood City all day yesterday in conjunction with the Old Timer's day and the American Legion bugle and drum corps competition.

It was a glorious event and day. Former residents from far and near and people from neighboring communities were present to spend the whole day there, as thousands participated in the excellent program of the affair. Every detail had been looked to and nothing seemed to interfere with the plans for the day. The various committees had the thing well in hand, and with very few exceptions run the program off according to schedule.

Burgess Judd C. Turner, general chairman of the day, and Paul N. Grannis, general chairman of the program, received the hearty thanks of the multitudes. Besides looking after the numerous details of the program, Mr. Grannis was the chief announcer over the loud speakers, which job he performed in an expert manner.

Local merchants closed their places of business at noon and were ready to participate in the events of the day at 1 o'clock as the local Legion bugle and drum corps and Italian band paraded through the city and thence to Ewing Park where the picnic was held. A sports program began sharply at 1:30 and included events for men, women and children. Besides the prizes for these events which were donated by the local merchants, there were special awards for the largest family present, the oldest resident in the original borough limits, oldest married couple, etc. There was a baseball game in which the Merchants defeated the Smiths by a 9-4 score in a nine-inning game.

An automobile was awarded to Mrs. William Matlocks of Hazel avenue. Mrs. John Kirkwood was the winner of the radio in the evening. Basket picnics were held throughout the day at the grove where free coffee, ice cream, lemonade and iced tea were served. This was the principal event of the affair as far as the kiddies were concerned.

About 7 o'clock the Sons of Columbus band of this city rendered a concert at the grove which was

thoroughly enjoyed by the huge assemblage.

Drum and Bugle Contest.

The outstanding feature of the evening was the big bugle and drum corps competition held under the flood lights at Lincoln field at 8:30. Six posts—Rochester, Greenville, Grove City, Sharon, Meadville and Ellwood City—participated in the event. The judges for this were Capt. Frank Kennedy of Rochester, Maj. Ernest C. Stewart of Ellwood City, Lewis Slesinger of Greenville and Comrade R. B. Croft of Ellwood City.

Following an inspection of the bugle and drum corps for neatness of uniform and equipment, each corps gave a ten-minute demonstration of marching, maneuvering and music. They were judged for their inspection, marching, maneuvering, music, cadence, etc.

At the close of the contest the judges awarded first place to Greenville with a score of 86.6, Ellwood City second, 84.35, and Meadville third, 82.05.

The crowning feature of the contest was the playing of "The Legion Drummer" by the entire bugle and drum corps of the six different corps. It was a grand spectacle as each post marched into position and then began playing in unison under the direction of Comrade Ed Bergstrom, music leader of the Greenville post. This included 160 men.

The drum majors of the various posts are as follows: Rochester, Frank McKenna; Grove City, Frank Ruffing; Sharon, Sam Walthar; Greenville, Harvey Keck; Meadville, H. D. Brown, and Ellwood City, Robert Crawford.

A big street dance at Ewing Park, beginning at 10 p. m. and ending at 12 was the closing feature of the program. Hundreds of people flocked to this event, and danced under a series of street lights.

Fellow Citizens NOTICE!

Cascade Park is your Park. This year it has been operated for your enjoyment and recreation. Your Board of Managers take pardonable pride in the fact that to date over 60,000 people have enjoyed the facilities provided. Your Board has no revenues except those which you provide, namely a percentage of the gross receipts from each concession plus the revenue from the parking lot. Every penny taken in for parking is used for your benefit.

It is the aim of your Board to eventually operate the Park devoid of any commercial feature. This year it was necessary to operate most of the concessions in order to provide revenue. Nevertheless, the appreciation of our citizenry of the semi-closed Sunday, the Free Band Concert, and the evening church service have been a source of keen satisfaction to your Board, and a confirmation of our policy to operate the Park for the benefit of all with no other restraint than that imposed by the conscience of a law-abiding citizen.

THE TIME OF CORN ROASTS IS HERE. We are happy to announce that thru the generosity of certain citizens, corn roasters are now being erected in the grounds where both large and small groups can be accommodated. These roasters will be ready not later than August 22nd.

Churches, lodges, granges, and civic clubs, etc., are invited to use these facilities. There is no charge—simply make application to the park manager for reservation and permit.

The Park is yours—use it all the year round.

Dress Workers Will End Strike

Swift Termination Of Dress Workers Strike Is Anticipated In New York

(International News Service) NEW YORK, Aug. 17.—Swift termination of the strike of 60,000 women's dress workers was anticipated today when representatives of the employees and manufacturers met with Grover Whalen, local chairman of the N. R. A. committee to sign a temporary agreement on working conditions.

Settlement of the strike was anticipated by early afternoon, leaders of both workers' and employers' groups indicated, and by next week it was expected all those who walked out will be back at work.

The agreement, drafted by Whalen a few hours after the workers went on strike yesterday and shortly after he was authorized by Dr. Leo Wolman, acting chairman of the national labor committee, to intervene in the walkout, specifically outlaws sweatshop conditions and places responsibility for working conditions in contractors' shops on dress jobs.

Senator Couzens Will Defend Self

Mills, board chairman of the closed first National Bank, testified that ex-president Hoover told him just before the Michigan bank holiday was declared, that "fear of Couzens" was the reason the R. F. C. would not make the loan.

Philadelphia Police Guard Family Of Deposed Head Of Cuba

(International News Service) PHILADELPHIA, Aug. 17.—Entrusting themselves temporarily to the protection afforded by Philadelphia police, the family of Gerardo Machado, deposed president of Cuba, remained under heavy guard today at the Pennsylvania Hotel, awaiting further orders from the overthrown ruler.

In a brief radio-telephone conversation from Nassau, in the Bahamas, where he fled, Machado instructed the family to remain here until more definite plans can be formulated.

Meanwhile, police, detectives and plainclothesmen were on the alert for expatriates exiled during the Machado regime who may seek to wreak vengeance on Senora Elvira Machado, the former president's wife, her three daughters, sons-in-law and five grandchildren.

It is said that there are other districts in the county where petitions to have the issue placed on the ballot may be circulated. At present there is one licensed place in North Beaver township and two in Enon Valley.

It may not be generally known that there is a "joker" in the local option provision of the beverage law. It gives residents a right to prohibit retail of beverage places in a district where the majority vote that way, but it does not prohibit a wholesaler in another district from selling in the local option territory.

For instance, if North Beaver township, or any other district, should vote dry, it would not prevent a citizen of the district from ordering beer from a wholesaler in New Castle and have it delivered to his home.

Volant Plant To Reopen When Code Becomes Official

Wage Controversy Results In Cessation Of Operations At Tile Plant

Shut down as a result of a wage controversy, on August 11th, the Pearson Brick company's clay tile plant at Volant will reopen when a national structural clay tile code is adopted officially at Washington, D. C.

Plant operations stopped when workmen protested that an NRA code should immediately be placed into effect there. It was only in July that the plant reopened after being idle since last fall.

Summarizing the situation, Mr. Pearson said:

"Our Volant plant resumed in July, after notices had been posted inviting the men back to work at their former pay rates. Operations continued until August 11th, when the men walked off the jobs. We immediately closed the plant pending the adoption of an official structural clay tile code. That should come about in the near future, but we have no definite knowledge when."

Must Submit Plans For Improvements

Plans For All Public Improvements Must Be Filed With Engineer

(International News Service) PITTSBURGH, Aug. 17.—State, county and municipal authorities today were advised by J. C. Trees, chairman of the Pennsylvania advisory board to the federal public works administration, to prepare their plans for public improvements.

Applications for funds for public improvements should be sent to the board's recently appointed engineer, Major William H. Gravelle of Philadelphia, who will open offices in Harrisburg soon.

Every project must be economically justified, Mr. Trees warned in a statement today. "Emphatic consideration will be given to the economic desirability of the project and its relation to unemployment and revival of industry," he said. Preference will be shown projects which can be started promptly near centers of employment," he added.

HERE AND THERE IN SPORTS' LAND

Joan Ridley of England yesterday succumbed to Mrs. A. J. Lamee, Jr. of Rye, N. Y., by scores of 8-6, 4-6, 6-4. Miss Ridley's defeat was a surprise as she has been playing only fair tennis this season. The match was in the second round of the women's National championships at Forest Hills.

Mickey Cutic and Jack Vindak fought a great amateur bout last night before several thousand fans at Youngstown where a tournament is under way. Cutic was given the decision. There were many good bouts staged. However, Cutic was the class of the night's going.

Miss Ted Davies of the Highland Country Club captured the low gross honors in the one day tournament for women at the Washington, Pa., Alcoma Country Club. She turned in a score of 90.

Mary Reynolds a long striding bay fully, born and reared in the South land, carried the silks of William N. Reynolds, Winston-Salem, N. C. to victory in the \$41,000 Hambleton event yesterday at Gothen, N. Y. Ben White drove her to win two firsts and a second. Her share of the purse amounted to \$28,323.

Virigela To Box New Kensington Boy

Rugged Junior Welterweights Are To Strut Wares Here

Jack Virigela, Butler and George Sharif, New Kensington, junior welterweights, have been matched for one of the eight bouts here August 28, it was announced today.

Virigela, an Italian-American and Sharif, a German-American, have fought two hectic fights and there's not an idle second when they crawl into the Castle bowl ring.

Doc Lancelotti of New Kensington, manager of Sharif believes his boy ultimately will win by a knockout. The same belief is held by Manager Zelazinski who handles Virigela.

It looks as though Jimmy Pasta of Ellwood City will not be able to box for some time as he broke his hand while training yesterday. Another opponent will be secured for Yank Pegley.

There are a lot of good amateur boxers in Western Pennsylvania and Eastern Ohio and with eight bouts sanctioned by the State Athletic commission and A. A. U. a revival of boxing fever is anticipated here.

GOLF FACTS NOT THEORIES

ALEX. J. MORRISON

WATCHING OTHER PLAYERS SWING AFFECTS YOUR SWING

ALEX. MORRISON says:

It probably has never occurred to you, but it is a fact that the act of watching another player's swing has a decided effect upon your own swing.

Let me explain. Standing on the tee, waiting for your playing partner to hit, it is natural that your eyes turn toward him. Subconsciously you absorb any fault he may have in his swing. You may recognize it as a fault and determine not to do it yourself.

But you may be sure that if he lunges at the ball, you, unconsciously, will do the same thing. If he has a stiff, jerky, awkward swing you are almost certain to copy him in some part of your own swing.

Of course, this business of watching other players may work the other way. Studying the expert players will tend to help you. But when playing in "duffer" company it is best to let your partners swing at the ball unobserved—by you.

Pirates Start Pennant Fight

Pirates Divide Two Games In Brooklyn And Remain Four Games Back Of Giants

SENATORS ARE SIX GAMES AHEAD
By COPELAND C. BURG
International News Service Sports Writer

NEW YORK, Aug. 17.—Those Pittsburgh Pirates, dirks in their teeth and clutching hands extended to grasp some of that world series gold, can make or break their chances for a final winning spurt in direction of the National League title today.

Without any pitchers and the Waver boys and Freddy Lindstrom not what they used to be the Bucs have stuck the nicely-balanced team fight that marked their early season play. They are only four games behind the league leading Giants and finishing the season at home they have a chance to come screaming down the stretch if their present eastern invasion isn't shot full of holes.

Taylor Hits Two.
Two homers by Danny Taylor robbed the Pirates of a win over Brooklyn yesterday and they dropped it in 11 innings, 2 to 1. But they came back in the finale to win, 11 to 7. As Piet and Grace each bagged three hits, Senor Olafson Lopez put on a small Cuban revolution in the second game, when he disagreed with one of Umpire McGraw's decision and dashed at the ump's after throwing his mask, glove pad and even his shin-guards in all directions. Max Carey, Brooklyn manager, then began to lay hands on McGraw. Both Carey and Lopez were banished.

Harold Schumacher gave the Cincinnati Reds just five hits, and the Giants scored a shut-out, 5 to 0. It was the New Yorkers 20th goose-egg victory of the season and the seventh for Master Hal.

Senators Win.
The pace-setting Washington Senators refused to crumble and made it eight in a row as they humbled Chicago's White Sox, 5 to 1. The Nats are six and a half games in front. Earl Whitehall, Washington's southpaw ace, struck out six, walked none and speeded seven clouts he allowed. It was his sixteenth triumph. Celebrating Rogers Hornsby day in honor of their new pilot, the St. Louis Browns climbed all over the New York Yankees, 13 to 3. Ed Wells, Yankee castoff, taunted his former pals with seven hits while the Browns collected 18 off Devers and two other Yanks hurling gents. Lou Gehrig completed his 1,307th Yorkers and thereby set a baseball record.

A homer by Jimmy Collins won for the Cardinals of St. Louis in a 12-inning grid against Philadelphia, 7 to 6. Cy Moore was too good in the finale, the Phillies shutting out St. Louis, 2 to 0. Moore gave up eight safeties, three more than did Dizzy Dean, but Cy was more stingy in the pinches.

Braves Win.
Bud Tinning blew up in the eighth as Boston scored three runs against the Cubs and Lero Hermann, recently recalled from Los Angeles, was no better, the Braves finally rolling it off, 6 to 1. Ford Franks shut out the Bruins until the ninth, when Charlie Grimm cracked a homer.

Singles by Porter, Cissell and Averill in the ninth won, 6 to 4, for Cleveland over the Athletics. Harder, who took over from Hildebrand, got credit for the win.

Detroit downed Boston's Sox, 6 to 1, making seven hits count for more than nine safeties garnered by Boston. Marty McManus, Sox manager, was ordered off the field after protesting an umpire's ruling.

Stock Market
Session DullSteel Shares Rally Under
Leadership Of U. S.
SteelTRADING SLOW;
VOLUME SMALL(International News Service)
NEW YORK, Aug. 17.—The stock market continued a dull and reactionary affair today as the grain markets failed to show any impressive improvement.

Wheat sold down 5 cents to the minimum levels allowed for today while corn and oats dropped from 1 to 3 cents. Opening about 1 point lower on the average the list developed some firming tendencies in the first hour but the rally was not allowed by volume and was unconvincing.

Steel shares rallied slightly from the opening under the leadership of United States Steel which moved slightly higher.

Motor shares appeared to be receiving some support on the sale down and Chrysler and General Motors maintained themselves fairly well.

Liquor shares were firm. Easiness in Atchison was a depressing influence on the rail shares.

The cotton market was strong as yesterday's rally carried over into today's session lifting prices about 75 cents a bale.

Trading was at a snail's pace with volume tapering off to the smallest total in weeks.

Market Reverses

Breaking of the grain market impasse shook stocks out of their rut today and gains of 1 to 7 points were chalked up in the leading issues within a space of 15 minutes. Trading was so rapid as to throw the high speed ticker 5 minutes behind the market.

The opening of the grain markets where wheat after opening at the minimum levels set for today, rallied sharply was the signal for the start of the broad advance.

Liquor shares led the upturn under the leadership of National Distillers which soared more than 5 points and was followed by American Commercial Alcohol, Commercial Solvents, United States Industrial Alcohol and Schenley Distillers.

Steel stocks came to life with United States Steel running up more than 3 points before profit taking started.

The first hour flurry subsided considerably on profit taking which started to come into the market around the noon hour and stocks settled down to a slow but steady climb.

Railroad shares which previously had been laggers and had given a decidedly poor performance turned strong under the leadership of New York Central, Union Pacific and Southern Railway and gains of more than 3 points were scored.

The grain and cotton markets were the features of the day's trading. On the Chicago board of trade wheat opened off the full 5 cents allowed in one day's dealings and then sharply to above last night's close where profit taking checked the advance and left prices about 2 cents under the previous finish.

Indian ArticlesStates War Bonnets Sold In
Chicago Were Purchased In
South Dakota

In a recent article in The News, it was stated that Paul Mackey of this city had sold the Indian war bonnets which were presented to Balbo and one of his lieutenants at the Chicago World's Fair during his recent visit, and that they had been manufactured by him.

Mr. Mackey, who is now in Pendleton, Ore., states that the latter part of the story was an error and that he does not manufacture these Indian goods himself. For years he has been a collector of Indian goods and has been buying and selling these articles. The bonnets, which he sold to the people in Chicago, were purchased from Indians who are members of the Rosebud Reservation in South Dakota.

Mr. Mackey has often loaned articles to local schools, churches, and the Boy Scouts, for Indian exhibits.

Headed For Altar(International News Service)
YOUNGSTOWN, O., Aug. 17.—Paul Maxin, 25, pardoned Ohio fugitive prisoner, today was believed altarbound.

Leaving here during the night for Chicago, Maxin, missed by a few minutes a telegram sent to him by his unnamed Chicago sweetheart.

Mrs. Benjamin Maxin, the mother of the ex-fugitive, was jubilant after the telegram had been received and said that "Paul may be married soon."

May Be Married

The mother said she may go to Chicago for the World's Fair and to visit her son and "perhaps for a wedding."

Mrs. Maxin said that her son's recent difficulties with the law had not impaired his position.

"On the contrary," she said, "Paul got a raise."

Maxin escaped from the Mansfield reformatory five years ago where he had been serving a one-to-15 year term for the theft of some class rings from a Mahoning county school.

He "made good" and became advertising manager for a large Chicago paint company. He was brought back to Mansfield, however, when police were "tipped off" but Gov. George White granted him a full pardon.

Schnader Makes Ruling On Loans For Home Owners

All Banks Operating Without Restrictions May Accept Federal Home Loan Bonds

(International News Service)
HARRISBURG, Aug. 17.—Attorney General William A. Schnader ruled today that banks, operating without restrictions, may purchase bonds of the Home Owners' Loan corporation as investments and may accept them in exchange for mortgages on real estate.

When operating under restrictions, however, banks may not purchase such bonds as investments with old funds and can purchase them with segregated funds only if classified as "liquid assets" but they may accept them in exchange for mortgages in cases where they would otherwise suffer a loss.

Building and Loan associations are not authorized to purchase such bonds as investments but may accept them in exchange for mortgages in cases in which it appears that to do so will prevent a loss.

Formal Interpretation
The opinion was a formal interpretation of the Building and Loan acts enacted by the 1933 legislature. On other points the opinion said: "Bank and Trust Companies, for their own account, have the same powers as banks. They may not purchase these bonds for trust estates in the absence of clear and unequivocal authority in the instrument creating the fiduciary relationship; but they may accept them in exchange for mortgages held by them for such estates, in any case in which, after a careful and independent examination of all the facts, it appears that to do so will save the estate from loss upon the mortgage thus given in exchange."

Savings banks are authorized to purchase bonds as investments or accept them in exchange for mortgages, only if authorized to do so by their articles of incorporation or any amendment thereto; if not authorized by their articles of incorporation to invest in such bonds. They may nevertheless accept them in exchange for mortgages held by them whenever it appears that to do so will save them from loss upon such mortgages.

"Trust companies, for their own account, have the same powers and are subject to the same limitations. With respect to such bonds, for trust estates, they have the same powers as bank and trust companies."

"Private banks under supervision of department of banking have the same powers as banks."

"The secretary of banking as receiver of banks, bank and trust companies and trust companies for their own account, savings banks, private banks under supervision of department of banking, building and loan association is not authorized to purchase such bonds as investments. He may, with the approval of the court, accept them in exchange for mortgages of the institution of which he is in possession in any cases in which he deems such action to be the best interest of the estate."

companies and trust companies for their own account, savings banks, private banks under supervision of department of banking, building and loan association is not authorized to purchase such bonds as investments. He may, with the approval of the court, accept them in exchange for mortgages of the institution of which he is in possession in any cases in which he deems such action to be the best interest of the estate.

"The secretary of banking as receiver of bank and trust companies and trust companies for estates of which they are serving in a fiduciary capacity is not authorized to purchase such bonds as investments for estates, but may accept them in exchange for mortgages of estates under the same circumstances and subject to the same conditions as governed the action of the institution in this regard prior to his taking of possession."

Liquidating trustees of building and loan associations, subject to the terms of the particular plan of voluntary dissolution, have the same powers as the secretary of banking as receiver of a building and loan association.

"The liquidating trustees of building and loan associations are authorized to accept the corporation bonds when they deem it to be the best interests of creditors and shareholders of the association. Schnader stated. The acceptance may be made under a plan of voluntary dissolution now used by the trustees to compromise and settle claims."

Similar announcements have been previously made by the commission affecting only truckers of the larger cities but the present ruling applies to all operators within the state.

City Unable To Reach Agreement

Not Likely Wall Will Be Built On Neshannock Avenue Side Of Creek

Probabilities are that failure of property owners and the city officials to come to an agreement will block the proposed construction of a stone wall along the north bank of the Neshannock creek from North street north.

The city wants some land donated to the city and this, it is said, has met with refusal.

A wall was built last summer on the Croton avenue side of the creek. The city desires to build a wall on the Neshannock or north side of the creek, it is said.

The Home Loan bonds are expected to be coming through for the first applications within a short time.
